Plastic prices on the rise!

Continuously escalating oil prices and energy costs have resulted in many material increases in 2011. We have just received notice that yet another increase is looming ahead! Effective May 2nd, 2011, UHMW is increasing another 18%! Many other plastics are increasing as well. Plastic has always been an affordable solution, and we are confident it will continue to be a great choice for your machining requirement!

Employee Spotlight

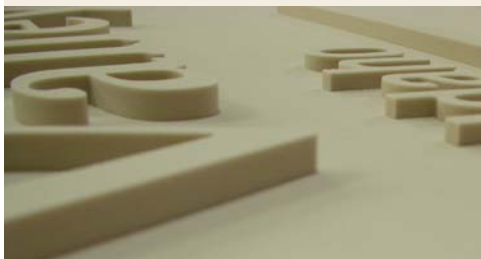

Ashley has been with us for about a year now. She started in our assembly division and now man's the handwork station. She is efficient with all handwork equipment, runs everything from the mill to the drill press and our CNC Laser. She is currently training on the CNC Routers. Ashley also handles daily shipping and packaging needs.

She is a sophomore at North Idaho College studying criminal justice.

Ashley is a valuable member of the Accurate family! We consider her a very valuable asset to our operation.

Hundreds of wood pucks lasered in a custom fixture.

News You Can Use!

Small Manufacturers Leading Economic Rebound

"China and the other high-growth economies are no longer alone to blaze the recovery trail. As long as that was the case, the economic recovery always felt somewhat fragile as it lacked wholesale support from the world's two biggest economic blocs. With Europe and the U.S. now appearing to be properly on board, the recovery feels more robust."

- Alan Buckle, global head of advisory at KPMG

Frequently Asked Questions!

Every Newsletter, we will post a few frequently asked questions so that you may get a better understanding of how ACNCS works.

These questions are also available on our website, www.acnccs.com. If you have a question you would like to ask, please contact us.

Q: Do I have to provide you with an electronic drawing?

A: No, you do not have to have electronic files. We can create the drawings in house; however, an engineering charge may apply.

Q: Do you supply material?

A: Yes, we supply material, or if you prefer, we can use your material. We have several local suppliers that provide us with materials in a timely manner and we carry many materials in stock!

Crazy Weather In North Idaho

Easter Sunday was a beautiful day with a wonderful 66 degree afternoon. This was the first day in 188 days that North Idaho experienced temperatures over 60 degrees. For much of October, for all of November, December, January, February, and March, and most of April, there has been plenty of rain, wind, snow, hail, cold and miserable weather.

Weather Facts:

- North Idaho has experienced 15.4 inches of rain since January 1st - normal is 9.25 inches.
- Since January 1st, there have been 81 days of measurable precipitation out of 117 days total.
- There have been 8 days of measurable snowfall in April - 6.9 inches total.

Hang in there folks!
